To Whom It May Concern:

I am pleased to recommend Jeroen Van Hoorebeke for an artist position to your company. As his Mentor and Coworker for 1 year in 2K Czech I have seen Jeroen become a great fit for our Character team with a large future potential. He developed from initial junior character artist position into regular character artist position while continuously exceeding his results.

His art work was always finished on time and always well executed as well as delivered correctly under strict technical requirements. Besides of his character art skills, Jeroen can be well utilized in other related technical tasks.

Interpersonally he has excellent written and verbal communication and English skills that allowed him to communicate with some of our 3rd party vendors as well as work effectively within our international team. Jeroen is a great team player and adding a good mood to the team.

Please feel free to contact me for any additional information you require.

Thank you,

Sincerely,
